Tiergartenstraße 18 | 10785 Berlin

# ASSAf-Leopoldina Public Roundtable Discussion

**“Pandemic Preparedness beyond COVID-19:  
Learn from the past, prepare for the future”**

COVID-19 revealed that pandemics have an enormous impact and create numerous challenges within and between different countries and regions. Thus, lessons learned from COVID-19 also have political and social dimensions.

COVID-19 has demonstrated how quickly infectious diseases can spread worldwide when hitting unprepared societies. While no one can prevent the outbreak of new infectious diseases, better preparedness and resilient health systems can help mitigate future pandemics. Prior investments in infectious diseases, open science, research infrastructure and human resource capacity building efforts and strong collaborations and partnerships between Low-Middle Income Countries (LMICs) and High Income Countries (HICs) enabled unprecedented progress in the development of diagnostics; vaccines and treatments buttressed by strong information systems. However, challenges like the unequal access and distribution of diagnostics, vaccines and treatments between LMIC and HIC remain. The recent health crises has once more highlighted the importance of a multi-sectorial and -dimensional approach to pandemics.

How can societies effectively implement prevention measures to strengthen the relevant sectors in preparing for future pandemics? How can pandemic preparedness be increased globally? These are some of the questions that panelists from the field of science, politics and industry will discuss. The audience is welcome to engage in the discussion.

The event is scientifically coordinated by Professor Quarraisha Abdool Karim (ASSAf) and Professor Stefan H.E. Kaufmann (Leopoldina).

The public event is part of the fourth event (“Infectious Diseases beyond COVID-19”, 23-24 May 2023, Berlin) of a workshop series on Infectious Diseases for post-doc researchers from Africa and Europe, which ASSAf and Leopoldina initiated in 2016.

## Programme

**5:30 pm – 6:30 pm | Registration**

---

**6:30 pm – 6:35 pm | Welcome**

---

**H.E. Phumelele Stone Sizani**, *Ambassador of the Republic of South Africa to the Federal Republic of Germany [TBC]*

**6:35 pm – 6:40 pm | Opening Address &  
Renewal of Memorandum of Understanding**

---

**Professor Dr Ulla Bonas ML**, *Leopoldina Vice President*

**Professor Dr Quarraisha Abdool Karim**, *ASSAf Representative*

**6:40 pm – 6:45 pm | Introduction by Moderators**

---

**Professor Dr Dr h.c. Stefan H.E. Kaufmann ML**, *Emeritus Director at the Max Planck Institutes for Infection Biology, Berlin, and for Multidisciplinary Sciences, Göttingen, Germany*

**Professor Dr Quarraisha Abdool Karim**, *Associate Scientific Director, CAPRISA (Center for the AIDS Programme of Research in South Africa), and Professor of Epidemiology, Columbia University, New York, USA*

**6:45 pm – 8:10 pm | Roundtable Discussion**

---

**H.E. Phumelele Stone Sizani**, *Ambassador of the Republic of South Africa to the Federal Republic of Germany [TBC]*

**Mr Heiko Rottmann-Großner**, *Head of Subdivision “Health Security”, German Federal Ministry of Health*

**Dr Morena Makhoana**, *Chief Executive Officer, Biovac, Cape Town, South Africa*

**Dr Huwaida Bulhan**, *Project Lead, Global Health Equity, Roche/Genentech Inc. Kenya, Nairobi, Kenya*

**Professor Dr Ndèye Coumba Toure Kane**, *Rector of Université du Sine Saloum El-Hâdj Ibrahima NIASS (USSEIN), Kaolack, Senegal*

**Professor Dr Workeabeba Abebe Taye**, *Professor of Pediatric Infectious Diseases, Addis Ababa University; Ethiopian Young Academy of Sciences, Addis Ababa, Ethiopia*

**Professor Dr Salim S. Abdool Karim**, *Director of the Centre for the AIDS Programme of Research in South Africa (CAPRISA), Durban, South Africa; Special Advisor (on pandemics) to the Director-General of the WHO*

**8:10 pm – 8:15 pm | Words of Thanks**

---

**8:15 pm – 9:15 pm | Reception**

---

## The Academies

Founded in 1652, the German National Academy of Sciences Leopoldina brings together some 1,500 outstanding scientists from about 30 countries. It is dedicated to the advancement of science for the benefit of humankind and to shaping a better future. In its role as the German National Academy of Sciences, the Leopoldina represents the German scientific community in international committees. It offers unbiased scientific opinions on political and societal questions, publishing independent studies of national and international significance. The Leopoldina promotes scientific and public debate, supports young scientists, confers awards for scientific achievements, conducts research projects, and campaigns for the human rights of persecuted scientists.

[www.leopoldina.org](http://www.leopoldina.org)

The Academy of Science of South Africa (ASSAf) aspires to be the apex organisation for science and scholarship in South Africa, recognised and connected both nationally and internationally. Through its membership which represents the collective voice of the most active scholars in all fields of scholarly enquiry, ASSAf aims to generate evidence-based solutions to national problems.
