

Contents

TER MEULEN, Volker: Welcome Greetings.....	7
ERTL, Georg, FRANTZ, Stefan, and BAUERSACHS, Johann: Introduction.....	9
General Principles of Wound Healing	
WAHL, Sharon M., MOUTSOPOULOS, Niki, ANGELOV, Nikola, GREENWELL-WILD, Teresa, KIM, Min P., WAHL, Larry, and ASHCROFT, Gillian S.: Signaling Cascades in Inflammation and Wound Healing.....	15
EMING, Sabine, SMOLA, Hans, ECKES, Beate, and KRIEG, Thomas: Regulation of Cellular Functions during Wound Healing (Extended Abstract)	23
The Ischemic Cardiac Wound	
HEUSCH, Gerd: Coronary Microembolization	29
GAWAZ, Meinrad: Platelets and Inflammation.....	35
WHITTAKER, Peter: Collagen Fibre Degradation and Re-synthesis after Infarction: Time-course, Structure, and Regulation	43
BLANKESTEIJN, W. Matthijs, CREEMERS, Esther E. C. M., CLEUTJENS, Jack P. M., JANSSEN, Ben J. A., DAEMEN, Mat J. A. P., and SMITS, Jos F. M.: Myocardial Infarct: Dead or Alive?.....	49
WALTENBERGER, Johannes: Coronary Vascular Destruction and Restructuring after Myocardial Infarction: Its Role for Myocardial Healing.....	55
HSIEH, Patrick C. H., RESTA, Lee P., DAVIS, Michael E., NARMONEVA, Daria A., and LEE, Richard T.: Cardiomyocyte-Endothelial Interactions in Cardiac Regeneration.....	61
BAUERSACHS, Johann, FRACCAROLLO, Daniela, FRANTZ, Stefan, and ERTL, Georg: Neurohumoral Control of Myocardial Healing (Extended Abstract).....	73
HARSDORF, Rüdiger VON: Regenerative Capacity of the Myocardium (Extended Abstract).....	77

Cell Therapy

WOLLERT, Kai C.: Stem Cell Therapy for Acute Myocardial Infarction – Experimental Background and Early Clinical Experience.....	81
ANVERSA, Piero, URBANEK, Konrad, LIMANA, Federica, CHIMENTI, Stefano, ROTA, Marcello, WHANG, Brian, LERI, Annarosa, and KAJSTURA, Jan: Stem Cells and the Infarcted Heart (Extended Abstract).....	89
DIMMELER, Stefanie: Endothelial Progenitor Cells (Extended Abstract).....	91

The Vascular Wound

AIKAWA, Masanori: Biology of Collagen Remodeling in Atherosclerotic Plaques ..	97
WERNER, Nikos, and NICKENIG, Georg: Defence Mechanisms of the Vascular Wall.....	103
WALTER, Ulrich: Role of the NO/cGMP/VASP Pathway in Platelet – Vessel Wall Interactions (Extended Abstract).....	109
MARX, Nikolaus: Aggression in the Vascular Wall: Are the Enemies Identified? (Extended Abstract).....	113

Back to General Principles

HESS, Otto: Coronary Restenosis – the Challenge for Basic and Clinical Research (Extended Abstract).....	117
HENTSCHEL, Ute, ÖLSCHLÄGER, Tobias, DOBRINDT, Ulrich, and HACKER, Jörg: Mechanisms of Destruction and Healing in Ecosystems: A Microbiologist’s View	121
